

Course Outline

NEBOSH HSE Certificate in Health & Safety Leadership Excellence

Duration

1 day

Who Should Attend?

This qualification has been developed in conjunction with the HSE (Health & Safety Executive) and is for senior business executives and leaders, and those aspiring to step into these roles, who need to fully understand the importance of effective safety leadership in driving a strong safety culture and performance within their organisation.

What Is Covered?

The course comprises the following key elements:-

1. What health and safety leadership means
2. The moral, legal and financial reasons for good health and safety leadership
3. The links between health and safety leadership and culture
4. What the different leadership styles are
5. How human failures can impact performance and culture
6. The HSE's model of effective health and safety leadership
7. How leaders can build effective relationships with the workforce

How is it Assessed?

Assessment is in the form of reflective statements undertaken throughout the course.

These show how the leader's knowledge, skill and behaviours may have both positive and negative effects on health and safety performance in their organisation.

Delegates will also need to make a commitment to a leadership intervention that will improve health and safety management within their sphere of influence at work.
